

1. Log into your coach account using your user name and password for your COACH account, **not** the TEAM account: <https://www.gotsport.com/asp/coaches/login.asp>
Once you log in you should see something like the image below.

2. Click on the "Background Checks" option and you should see something like the image below.

3. You are requested to watch the concussion awareness video before submitting your background check. There is important information in the video regarding the new concussion protocols that have been mandated by US Soccer. Once you've completed the video, click on the "Submit New Report" button and then just complete the form and submit it.

Once your background check has been approved, RSA will automatically be notified and you will be able to be added to the team you wish to coach.

Please contact us if you have any problems or questions regarding the background check process.
